Water-Resistant

Breathability

Durability

Best use: ICE CLIMBING AND MIXED; TECHNICAL ALPINISM; ALLROUND MOUNTAINEERING

Lightweight, minimal and highly technical, the Supercouloir Insulated Glove is dedicated to ice climbing and the most extreme winter activities. Breathable, warm thanks to the back insulation, waterproof and extremely durable thanks to the SuperFabric reinforcement inserts on the back and fingers, which ensure maximum sensitivity and precision during the most demanding tours.

- › Neoprene cuff and nylon fabric on the lower back and thumb provide high elasticity and mobility during activity
- › Goat leather palm ensures durability while stretch and suede fabric give absolute comfort
- › The goat leather reinforcements placed on the palm of the fingers and the additional goat leather gripping fabric in the central area of the palm and index finger give maximum safety and resistance
- › Equipped with hook-and-loop closure with silicon logo above, puller and safety lace
- › The glove is also equipped with waterproof inserts to provide warmth and protection from wet ice
